

## Modular Certification has started for Wi-Fi, Bluetooth, Zigbee, and etc. without connector joints.

The modular certification for Wi-Fi, Bluetooth, Zigbee, and etc., is subject to satisfying the condition of “Easily detachable structure by connector joints, and identifiable under the specific term ”Easily” which is in accordance to the guide by RCB-C (Registered Certification Body Council). Due to the partial change of their guidelines, we have started the modular certification process for equipment without “connector joints”, as long as the module itself satisfies the technical regulations of the specified radio equipment as an independent module.

For detail, please consult the sales division of DSPR.

### Note 1. Scope of application

#### 2.4GHz Band Wide-band Low Power Data Communication System

Specified Radio Equipment specified in Article 2 Paragraph 1, Item 19 of the Ordinance concerning Technical Regulations Conformity Certification etc.

#### 2.4GHz Band Low Power Data Communication System

Specified Radio Equipment specified in Article 2 Paragraph 1, Item 19-2 of the Ordinance concerning Technical Regulations Conformity Certification etc.

#### 5GHz Band Low Power Data Communication System

Specified Radio Equipment specified in Article 2 Paragraph 1, Item 19-3, and 19-3-2 of the Ordinance concerning Technical Regulations Conformity Certification etc.

#### 5GHz Band Radio Access System, Land Mobile Station and Portable Station

Specified Radio Equipment specified in Article 2 Paragraph 1, Item 19-11 of the Ordinance concerning Technical Regulations Conformity Certification etc.
