

Certification categories of CDMA2000 have been unified

The frequency bands supported by CDMA2000, "BC (Band Class)0 (800MHz Band), and BC6 (2GHz Band)", had been specified as different categories for each frequency band by "Ordinance concerning Technical Regulations Conformity Certification etc. of Specified Radio Equipment" and "Ordinance Regulating Radio Equipment".

In the Official Gazette, as of December 5, 2012, the Ministerial Ordinance on Partial Revision of the Regulations for Enforcement of the Radio Law (Ordinance of the Ministry of Internal Affairs and Communications No. 99) was publicly notified, and came into effect on the same day. In accordance with the ordinance change, certification categories of CDMA2000 have been changed as stated below.

OLD

Category	Base Station	Land Mobile Station	Relay Station	Femtocell	Indoor Base Station
