

## (A Part of) Wireless Charging System

### Type Designation System

The regulations for Enforcement of the Radio Act.(\*) was amended on March 15 2016, and the following 3 items are now subject to Type designation.

- 400kHz Band Electric Field Combination Contactless Power Transmission for general purpose
- 6.7MHz Band Magnetic Field Combination Contactless Power Transmission for general purpose
- Contactless Power Transmission for Electric vehicle

The predicate rule applies to the rest of items. (Permission for installation is required for Industrial Facilities Emitting Radio Waves without communication, which output power exceeds 50W).

The technical Condition for Contactless Power Transmission for Electric vehicle is different. Please contact us.

\* Ordinance of the Ministry of Internal affairs and Communications No.15, 2016
