

## ***New Regulation Added for 6GHz Band Wireless Lan and 5.2GHz Band In-car Wireless LAN***

Effective on September 2, 2022, The Ministry of Internal Affairs and Communications issued a partial amendment to Ordinance No. 59 on adding the following regulations under the Technical Condition / Requirements for Specified Radio Equipment.

The following regulations have been added:

Certification Ordinance Article	Symbol	Item
Article 2-1-78	XR	5GHz band low power data communication system (Vehicle)
Article 2-1-79	YR	6GHz band low power data communication system (VLP)
Article 2-1-80	ZR	6GHz band low power data communication system (LPI)

From September 2, 2022, we can accept applications for the above mentioned certification and testing. Please contact the following for the certification, testing, or details of the technical standard.
